C WORLDWIDE

NOTES TO THE FINANCIAL STATEMENTS

1 GENERAL

C WORLDWIDE (hereafter the "Fund") is an unincorporated collective investment fund ("fonds commun de placement") constituted in Luxembourg on 6 December 1995 governed by Luxembourg law and investing in transferable securities and other permitted assets. The Fund is an Undertaking for Collective Investment in Transferable Securities (a "UCITS") registered under Part I of the 17th December 2010 law, as amended on collective investment undertakings.

The Fund is an unincorporated co-proprietorship of its securities and other assets, managed by C WorldWide Fund Management S.A. ("the Management Company"). The Management Company was incorporated on 5 December 1995 in Luxembourg as a "société anonyme". The assets of the Fund are segregated from those of the Management Company.

The Fund has currently the following active Sub-Funds and Unit Classes:

- C WorldWide Emerging Markets - Class 1A
- C WorldWide Emerging Markets - Class 1C
- C WorldWide Emerging Markets - Class 2A
- C WorldWide Emerging Markets - Class 7A

Class 15 is only available to the Swedish Premium Pension system approved by C Worldwide Asset Management A/S.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are established in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment in transferable securities.

2.1 Valuation of investments

- (a) The value of any cash at hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, dividends and interests declared or due but not yet collected will be deemed to be the full value thereof, unless it is unlikely that such values are received in full, in which case the value thereof will be determined by deducting such amount the Directors of the Management Company consider appropriate to reflect the true value thereof.
- (b) Securities listed on a stock exchange or traded on any other regulated market will be valued at the last available price on such stock exchange or market. If a security is listed on several stock exchanges or markets, the last available price on the stock exchange or market, which constitutes the main market for such securities, will be determining.
- (c) Securities for which no price quotation is available or for which the price referred to in (b) is not representative of the fair market value, will be valued prudently, and in good faith on the basis of their reasonable foreseeable sales prices.
- (d) Investments in investment funds of an open ended type are taken at their latest net asset values reported by the administrator of the relevant investment fund.

A statement of changes in the composition of the portfolio is available to Unitholders free of charge on request from the Management Company's registered office.

C WORLDWIDE

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.2 Realised gains and losses on investments

Realised gains and losses on sales of investments have been determined on the average cost basis and include transaction costs.

2.3 Foreign currency translation

The combined financial statements of the Fund are maintained in USD. The combined financial statements are the sum of the Sub-Funds' financial statements equivalent in USD translated, where applicable, at the rate of exchange ruling at 30 June 2024.

The market value of the investments and other assets and liabilities expressed in currencies other than the base currency of each Sub-Fund have been converted at the rates of exchange ruling at 30 June 2024. The cost of investments in currencies other than the base currency of each Sub-Fund is converted at the rates of exchange prevailing at each Net Asset Value calculation date. The realised and unrealised gains and losses on foreign exchange operations are recognized in the Statement of Operations and Changes in Net Assets.

Income and expenses expressed in currencies other than the reference currency are converted at exchange rates ruling at the transaction date.

2.4 Dividend and interest income

Dividends are shown net of withholding tax deducted at source and are recorded as income on the ex-dividend date.

2.5 Dilution

To protect existing unit holders from the dilution of value caused by large transactions in and out of a Sub-Fund, as the case may be, the Management Company may determine to apply "Swing Pricing", i.e. adjust the Net Asset Value (to include such reasonable factors as they see fit). As a matter of fact, transactions in and out of a sub-fund may result in dilution of value caused by the cost associated with the dealing such as brokerage fees, transaction charges, taxes, spread effects and market impact.

If on any Valuation Day the net capital inflows or outflows exceed a certain threshold, set by the Board from time to time, for each Sub-Fund the Net Asset Value will be adjusted upwards or downwards to reflect the cost that may be incurred by buying or selling investments to satisfy the daily transactions at Sub-Fund level. This method is known as the "Partial Swing Method". The threshold takes into account such factors as the estimated dilution costs, the size of the sub-fund and the prevailing market conditions. The application of Swing Pricing will be triggered mechanically and on a consistent basis.

The adjustment will be upwards when the net aggregated transactions result in an increase in the number of units and downwards when the net aggregated transactions result in a decrease in the number of units in a given sub-fund. The adjusted Net Asset Value (the "Swung NAV") will be applicable to all transactions for the specific sub-fund on that specific Valuation Day.

The Swing Factor is at maximum 3% of the net subscription position or the net redemption position, as the case may be.

Following sub-funds applied Swing factor during the period ended 30 June 2024:

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

4 TAXATION

The Fund is registered under the Luxembourg law as a mutual investment fund (“Fonds Commun de Placement”). Accordingly, no Luxembourg income or capital gains tax is, at present, payable. It is subject, however, to an annual subscription tax (“taxe d’abonnement”) calculated as a percentage of the net asset value of the Fund at the end of each quarter, excluding investments in other Luxembourg funds already subject to that tax. This tax is payable quarterly. Presently, the annual rate payable is 0.05% p.a. of the net asset value of the classes, except for the classes only available to institutional investors which have a reduced rate to 0.01% p.a. of the net assets attributable to such classes.

5 MANAGEMENT FEES

The Management Company is entitled to be paid a fee based on the net assets of each active Sub-Fund as determined on each valuation date. The fee is accrued daily and payable monthly. The management fee rate applicable to each active Sub-Fund, in % of the total net assets per year, is as follows:

Sub-Fund	Unit Class	Management Fee for the period 1 January 2024 to 30 June 2024

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

5 MANAGEMENT FEES (CONTINUED)

Sub-Fund	Unit Class	Management Fee for the period 1 January 2024 to 30 June 2024
C WorldWide India	8A	0.48%
C WorldWide Centuria Global Equities	1A	1.60%
C WorldWide Centuria Global Equities	1C	1.60%
C WorldWide Centuria Global Equities	3A	0.80%
C WorldWide Centuria Global Equities	4A	0.80%
C WorldWide Centuria Global Equities	5B	1.60%
C WorldWide Centuria Global Equities	8A	0.40%

A portion of the Management Fees is used to remunerate the Investment Manager, the distributor and the transfer agent.

Due to their size, a portion of the audit, legal and other expenses for the following Sub-Funds: C WorldWide Emerging Markets, C WorldWide Stable Equities, C WorldWide India, C WorldWide Centuria Global Equities and C WorldWide Nordic are partially borne by the Management Company.

6 DEPOSITARY FEES

The depositary will receive a depositary fee accrued daily, on the net assets of the Sub-Fund and payable monthly in arrears, not exceeding 0.05% of the net assets of the Sub-Fund.

In addition, the Depositary is entitled to be reimbursed out of the net assets of the Sub-Fund for any fees charged to it in relation to sub-custodian services regarding the Sub-Fund and for its reasonable out-of-pocket expenses.

Depositary fees are borne by each sub-fund instead of the Management Company.

7 TRANSACTION COSTS

Transaction costs incurred by the Fund are relating to purchase or sale of securities and are included in the transaction price to calculate the realized and unrealized gain/(loss) on securities.

For the period ended 30 June 2024, the Fund incurred transaction costs which have been defined as the commission paid by the Fund to the intermediary relating to purchases or sales of transferable securities, money market instruments, derivatives or other eligible assets as follows:

Sub-Fund	Currency	Transaction costs in Sub-Fund currency
C WorldWide Emerging Markets	USD	46,464.14
C WorldWide Stable Equities	USD	17,244.89
C WorldWide Healthcare Select	EUR	306,442.65
C WorldWide Nordic	USD	36,691.56
C WorldWide Sweden	SEK	165,325.46
C WorldWide Sweden Small Cap	SEK	651,343.96
C WorldWide Global Equities	USD	810,915.27
C WorldWide Asia	USD	330,868.35
C WorldWide Global Equities Ethical	EUR	369,861.97
C WorldWide India	USD	43,905.44
C WorldWide Centuria Global Equities	USD	17,713.19

8 PLEDGES

The assets of the Fund are pledged in favour of the Depositary to guarantee the liabilities of the Fund.

C WORLDWIDE

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

9 DIVIDEND PAID

During the financial period ending 30 June 2024, the Board of Directors decided to pay dividends as follows:

Sub-Fund	Sub-Fund currency	Unit Class	Dividend per Unit	Ex date	Pay date
C WorldWide Nordic	USD	5B	6.57	06-May-2024	08-May-2024
C WorldWide Sweden	SEK	5B	6.18	06-May-2024	08-May-2024
C WorldWide Sweden Small Cap	SEK	5B	23.29	06-May-2024	08-May-2024
C WorldWide Global Equities	USD	5B	3.70	06-May-2024	08-May-2024
C WorldWide Global Equities Ethical	EUR	5B	0.77	06-May-2024	08-May-2024
C WorldWide Centuria Global Equities	USD	5B	4.71	06-May-2024	08-May-2024

10 SUBSEQUENT EVENTS

No matters or circumstances of importance have arisen since the end of the financial year which have significantly affected or may significantly affect the operations of the Fund, the results of those operations or the affairs of the Fund.

OTHER INFORMATION TO UNITHOLDERS (UNAUDITED)

1 REMUNERATION POLICY OF THE MANAGEMENT COMPANY

The Board of Directors of the Management Company is responsible for the design and implementation of the Remuneration Policy and reviewed it on a regular basis as part of its supervisory function. In reviewing the Remuneration Policy, the Board of Directors of the Management Company considered whether the remuneration framework operated as intended and that the risk profile, long-term objectives and goals of the Fund were adequately reflected.

A copy of the Remuneration Policy is available, free of charge, at the registered office of the Management Company.

The total amount of remuneration for the financial period split into fixed and variable remuneration, paid by the Management Company to its staff and in relation to the activity of the Fund is as follows:

Gross fixed remuneration: EUR 290,735.98

Gross variable remuneration: EUR 0.00

Number of beneficiaries: 4.5

The aggregate amount of remuneration broken down by senior management and members of staff of the Management Company whose actions have a material impact on the risk profile of the Fund and in relation to the activity of the Fund is as follows:

Gross senior management remuneration: EUR 215,481.31

Number of beneficiaries: 2.0

Gross staff remuneration: EUR 75,254.68

Number of beneficiaries: 2.5

During the period ended, no carried interest has been paid by the Fund and there were no material changes to the adopted remuneration policy.

2 GLOBAL RISK EXPOSURE CALCULATION METHOD

All the Sub-Funds use the commitment approach to monitor and measure the global risk exposure.

3 ADDITIONAL INFORMATION REGARDING THE TRANSPARENCY OF SECURITIES FINANCING TRANSACTIONS AND OF REUSE

The Fund is subject to the Regulation (EU) 2015/2365 on Transparency of Securities Financing Transactions and of Reuse and Amending Regulation (EU) No 648/2012 of the European Parliament ("SFTR").

A Securities Financing Transaction ("SFT") is defined per Article 3(11) of the SFTR as:

- a repurchase transaction or a reverse repurchase transaction;
- a securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction;
- a margin lending transaction.

As at 30 June 2024, the Fund does not hold any of the above SFTs. Furthermore, no corresponding transactions were carried out during the period referring to the financial statements. Consequently, there's no information to disclose on Transparency of Securities Financing Transactions and of Reuse.

4 SFDR PERIODIC DISCLOSURE

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are covered under SFDR periodic disclosure (unaudited) of the Annual Report.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE GLOBAL EQUITIES
 Legal entity identifier: 549300XYXLOGKJU5D716

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting and small arms (**Sector exclusions**). This has been screened for on a monthly basis.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Companies that were non-compliant with UNGC	
2023	2022
0	0

Controversial weapons				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0

Sector exclusions				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Military Contracting	Companies manufacturing military weapon systems or integral, tailor-made components of these weapons.	5%	0	0
	Company providing tailor-made products or services that support military weapons	5%	0	0
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5%	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5%	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are sector exclusions, controversial weapons, and UN Global Compact. It is noteworthy that during the previous period, there were no investee companies exceeding the level of involvement, and this compliance record continues into the present period.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator	Metric	Impact 2023	
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS			
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	85057.38 tonne CO ₂ e
		Scope 2 GHG emissions	34262.766 tonne CO ₂ e
		From 1 January 2023, Scope 3 GHG emissions	3274245.8 tonne CO ₂ e
		Total GHG emissions	3541728.2 tonne CO ₂ e
	2. Carbon footprint	Carbon footprint	315.0671 tonne CO ₂ e / EUR M invested
	3. GHG intensity of investee companies	GHG intensity of investee companies	1024.2468 tonne CO ₂ e / EUR M revenue
	4. Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	1.78 %
5. Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage	Consumption: 59.21 %	
		Total: 0.51381 GWh / EUR M revenue	
		Sector C: 0.09006904 GWh / EUR M revenue Sector D: 9.996447 GWh / EUR M revenue	
6. Energy consumption intensity per high impact climate sector	Energy consumption in GWh per million EUR of revenue of investee companies, per high impact climate sector	Total: 0.51381 GWh / EUR M revenue Sector C: 0.09006904 GWh / EUR M revenue Sector D: 9.996447 GWh / EUR M revenue	
Biodiversity	7. Activities negatively affecting biodiversity-sensitive areas	Share of investments in investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas	3.76 %
Water	8. Emissions to water	Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average	0.000062992744 tonne / EUR M invested
Waste	9. Hazardous waste ratio	Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average	0.11955029 tonne / EUR M invested

SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS			
Social and employee matters	10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	20.87 %
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	0 %
	12. Unadjusted gender pay gap	Average unadjusted gender pay gap of investee companies	8.92 %
	13. Board gender diversity	Average ratio of female to male board members in investee companies	31.58 %
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	0 %
ADDITIONAL CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS			
Emissions	4. Investments in companies without carbon emission reduction initiatives	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement	37.06%
ADDITIONAL INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS			
Anti-corruption and anti-bribery	15. Lack of anti-corruption and anti-bribery policies	Share of investments in entities without policies on anti-corruption and antibribery consistent with the United Nations Convention against Corruption	2.61%

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/01-2023 to 31/12-2023.

Largest investments 2023	Sector 2023	% Assets 2023	Country 2023
Novo Nordisk B	Health Care	7.4%	Denmark
Microsoft	Information Technology	5.6%	United States
Thermo Fisher Scientific	Health Care	5.4%	United States
Visa	Financials	5.4%	United States
Alphabet C	Communication Services	3.8%	United States
Amazon.com	Consumer Discretionary	3.8%	United States

Procter & Gamble	Consumer Staples	3.0%	United States

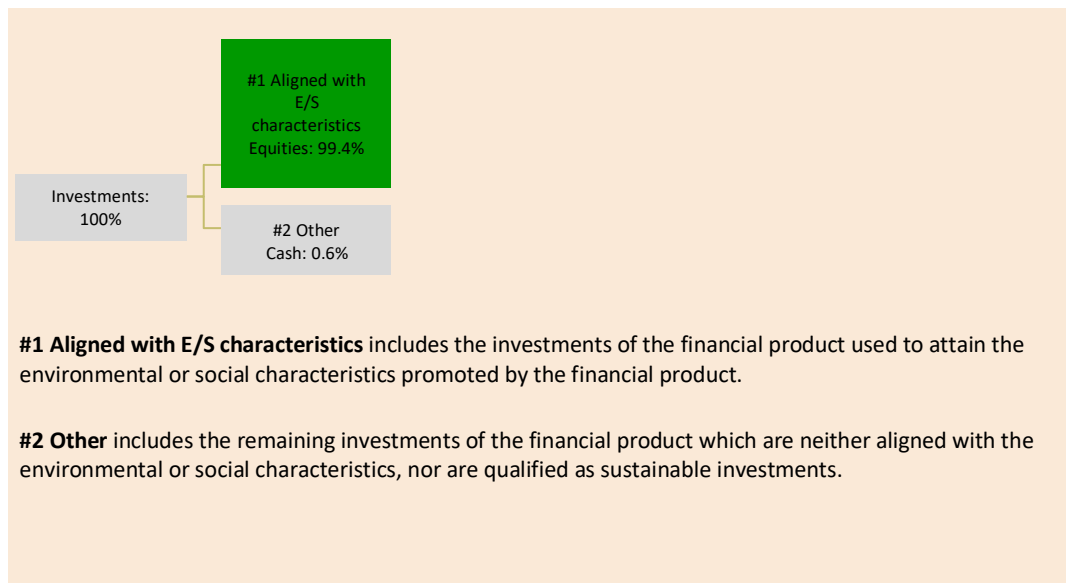

The top investments of the Sub-Fund are calculated based on the average of the daily values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2023	2022
#1 Aligned with E/S characteristics	99.4%	99%
#2 Other	0.6%	1%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Sector	Weight
Transaction & Payment Processing Services	7.4%
Pharmaceuticals	7.4%
Systems Software	5.6%

Consumer Staples Merchandise Retail	1.5%
Insurance Brokers	1.4%
Telecom Tower REITs	1.2%
Regional Banks	0.4%
Specialty Chemicals	0.1%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

% of aligned investments	Enabling (An economic activity that enables other activities to contribute to an environmental objective)	Transition (Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)	Own Performance (An economic activity that is performed in an environmentally sustainable way)
Climate Change Mitigation	<0.5%	0%	1%
Climate Change Adaptation	0%	-	0%
Biodiversity & Ecosystem	-	-	0%
Pollution Prevention & Control	-	-	0%
Water & Marine Resources	0%	-	0%
Circular Economy	0%	-	0%

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures*

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The portfolio is 0.07% aligned with the EU Taxonomy through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons	
2023	2022
0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Investment Manager.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2023

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE NORDIC
 Legal entity identifier: 549300GQ1PLZ3BKZXQ28

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting, small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Companies that were non-compliant with UNGC	
2023	2022

	generation of electricity from thermal coal.			
Oil Sands	Companies involved in oil sands extraction.	5%	0	0
Shale Energy	Companies involved in shale energy exploration or production.	5%	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are sector exclusions, controversial weapons, and UN Global Compact. It is noteworthy that during the previous period, there were no investee companies exceeding the level of involvement, and this compliance record continues into the present period.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

The top investments of the Sub-Fund are calculated based on the average of the daily values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2023	2022
#1 Aligned with E/S characteristics	96.1%	96%
#2 Other	3.9%	4%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Sector	Weight
Industrial Machinery & Supplies & Components	19.9%
Building Products	10.0%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

% of aligned investments	Enabling <i>(An economic activity that enables other activities to contribute to an environmental objective)</i>	Transition <i>(Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)</i>	Own Performance <i>(An economic activity that is performed in an environmentally sustainable way)</i>
Climate Change Mitigation	5%	<1%	2%
Climate Change Adaptation	0%	-	0%
Biodiversity & Ecosystem	-	-	0%
Pollution Prevention & Control	-	-	0%
Water & Marine Resources	0%	-	0%
Circular Economy	0%	-	0%

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

0.93% of the portfolio is aligned with the EU Taxonomy through transitional activities and 4.92% is aligned through enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons	
2023	2022
0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Investment Manager.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2023
<i>Amount of new PAI analysis made</i>	30
<i>Amount of updated PAI analysis</i>	0

Active ownership

Engagement is an integral part of the investment process. It is anchored directly with the portfolio management team responsible for the Sub-Fund.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE EMERGING MARKETS
 Legal entity identifier: 549300YM4QHB6UUOM871

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting and small arms (**Sector exclusions**). This has been screened for on a monthly basis.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Companies that were non-compliant with UNGC	
2023	2022
0	0

Controversial weapons				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0

Sector exclusions				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Military Contracting	Companies manufacturing military weapon systems or integral, tailor-made components of these weapons.	5%	0	0
	Company providing tailor-made products or services that support military weapons	5%	0	0
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5%	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5%	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are sector exclusions, controversial weapons, and UN Global Compact. It is noteworthy that during the previous period, there were no investee companies exceeding the level of involvement, and this compliance record continues into the present period.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator	Metric	Impact 2023

The top investments of the Sub-Fund are calculated based on the average of the daily values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2023	2022
#1 Aligned with E/S characteristics	97.73%	98.8%
#2 Other	2.27%	1.2%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Investment Manager.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2023
<i>Amount of new PAI analysis made</i>	29

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE HEALTHCARE SELECT
 Legal entity identifier: 549300R80F3CJB8CE623

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting, small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Companies that were non-compliant with UNGC	
2023	2022
0	0

Controversial weapons				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0

Sector exclusions

	Companies involved in the generation of electricity from oil or gas.	25%	0	0
Thermal Coal	Companies involved in thermal coal extraction.	0%	0	0
	Companies involved in the generation of electricity from thermal coal.	5%	0	0
Oil Sands	Companies involved in oil sands extraction.	0%	0	0
Shale Energy	Companies involved in shale energy exploration or production.	0%	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are sector exclusions, controversial weapons, and UN Global Compact. It is noteworthy that during the previous period, there were no investee companies exceeding the level of involvement, and this compliance record continues into the present period.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator	Metric	Impact 2023	
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS			
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	3560.9568 tonne CO2e
		Scope 2 GHG emissions	4605.3877 tonne CO2e
		From 1 January 2023, Scope 3 GHG emissions	92530.48 tonne CO2e
		Total GHG emissions	98682.81 tonne CO2e
	2. Carbon footprint	Carbon footprint	18.549438 tonne CO2e / EUR M invested
	3. GHG intensity of investee companies	GHG intensity of investee companies	109.90986 tonne CO2e / EUR M revenue
	4. Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	0 %
5. Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage	Consumption: 64.58 %	
6. Energy consumption intensity per high impact climate sector	Energy consumption in GWh per million EUR of revenue of investee companies, per high impact climate sector	Total: 0.041236192 GWh / EUR M revenue Sector C: 0.041236192 GWh / EUR M revenue

Align Technology	Health Care	2.6%	United States

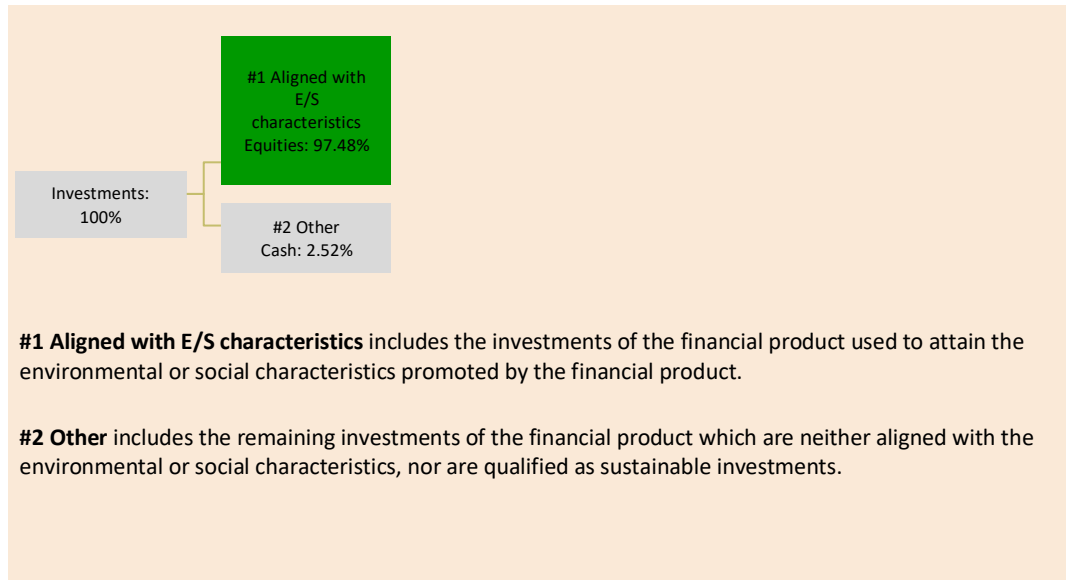

The top investments of the Sub-Fund are calculated based on the average of the daily values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2023	2022
#1 Aligned with E/S characteristics	97.48%	97.4%
#2 Other	2.52%	2.6%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	Weight
Health Care Equipment	27.6%
Biotechnology	23.1%
Pharmaceuticals	22.5%
Managed Health Care	10.0%
Life Sciences Tools & Services	7.0%
Unassigned	4.8%
Health Care Supplies	2.6%
Health Care Services	1.9%
Health Care Technology	0.5%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

% of aligned investments	Enabling <i>(An economic activity that enables other activities to contribute to an environmental objective)</i>	Transition <i>(Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)</i>	Own Performance <i>(An economic activity that is performed in an environmentally sustainable way)</i>
Climate Change Mitigation	0%	0%	0%
Climate Change Adaptation	0%	-	0%
Biodiversity & Ecosystem	-	-	0%
Pollution Prevention & Control	-	-	0%
Water & Marine Resources	0%	-	0%
Circular Economy	0%	-	0%

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

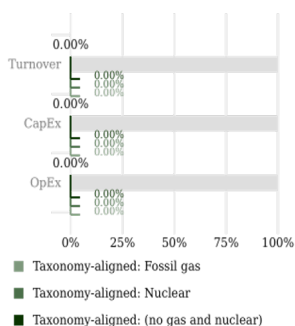

In fossil gas In nuclear energy

No

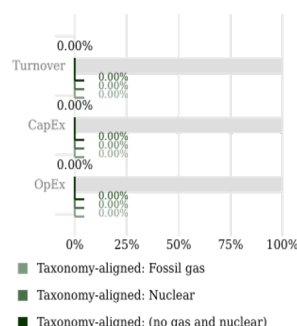

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The product does not have any alignment with the EU Taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE STABLE EQUITIES

Legal entity identifier: 549300D7S2TIBOEWTS41

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting and small arms (**Sector exclusions**). This has been screened for on a monthly basis.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Companies that were non-compliant with UNGC	
2023	2022
0	0

Controversial weapons				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0

Sector exclusions				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Military Contracting	Companies manufacturing military weapon systems or integral, tailor-made components of these weapons.	5%	0	0
	Company providing tailor-made products or services that support military weapons	5%	0	0
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5%	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5%	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are sector exclusions, controversial weapons, and UN Global Compact. It is noteworthy that during the previous period, there were no investee companies exceeding the level of involvement, and this compliance record continues into the present period.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

The top investments of the Sub-Fund are calculated based on the average of the daily values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2023	2022
#1 Aligned with E/S characteristics	95.6%	93.6%
#2 Other	4.4%	6.4%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	Weight

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

% of aligned investments	Enabling <i>(An economic activity that enables other activities to contribute to an environmental objective)</i>	Transition <i>(Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)</i>	Own Performance <i>(An economic activity that is performed in an environmentally sustainable way)</i>
Climate Change Mitigation	<0.5%	0%	5%
Climate Change Adaptation	0%	-	<0.5%
Biodiversity & Ecosystem	-	-	0%
Pollution Prevention & Control	-	-	0%
Water & Marine Resources	0%	-	0%
Circular Economy	0%	-	0%

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The portfolio is 0.29% aligned with the EU Taxonomy through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons	
2023	2022
0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Investment Manager.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2023
<i>Amount of new PAI analysis made</i>	40

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE GLOBAL EQUITIES ETHICAL
 Legal entity identifier: 549300MO0ZN96EI7SE52

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting, small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Companies that were non-compliant with UNGC	
2023	2022
0	0

Controversial weapons				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0

	Companies involved in the	5%	0	0

	generation of electricity from thermal coal.			
Oil Sands	Companies involved in oil sands extraction.	0%	0	0
Shale Energy	Companies involved in shale energy exploration or production.	0%	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are sector exclusions, controversial weapons, and UN Global Compact. It is noteworthy that during the previous period, there were no investee companies exceeding the level of involvement, and this compliance record continues into the present period.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator	Metric	Impact 2023	
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS			
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	15583.13 tonne CO ₂ e
		Scope 2 GHG emissions	18908.836 tonne CO ₂ e
		From 1 January 2023, Scope 3 GHG emissions	1101827 tonne CO ₂ e
		Total GHG emissions	1241025 tonne CO ₂ e

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The portfolio is 0.09% aligned with the EU Taxonomy through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting and small arms (**Sector exclusions**). This has been screened for on a monthly basis.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Companies that were non-compliant with UNGC	
2023	2022
0	0

Controversial weapons				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0

Sector exclusions				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Military Contracting	Companies manufacturing military weapon systems or integral, tailor-made components of these weapons.	5%	0	0
	Company providing tailor-made products or services that support military weapons	5%	0	0
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5%	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5%	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are sector exclusions, controversial weapons, and UN Global Compact. It is noteworthy that during the previous period, there were no investee companies exceeding the level of involvement, and this compliance record continues into the present period.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator		Metric	Impact 2023
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS			
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	129493.3 tonne CO ₂ e
		Scope 2 GHG emissions	63958.535 tonne CO ₂ e
		From 1 January 2023, Scope 3 GHG emissions	506190.12 tonne CO ₂ e
		Total GHG emissions	667619 tonne CO ₂ e
	2. Carbon footprint	Carbon footprint	177.51204 tonne CO ₂ e / EUR M invested
	3. GHG intensity of investee companies	GHG intensity of investee companies	622.285 tonne CO ₂ e / EUR M revenue
	4. Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	1.02 %
5. Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage	Consumption: 87.68 %	
6. Energy consumption intensity per high impact climate sector	Energy consumption in GWh per million EUR of revenue of investee companies, per high impact climate sector	Total: 0.5181338 GWh / EUR M revenue Sector C: 0.60776526 GWh / EUR M revenue	
Biodiversity	7. Activities negatively affecting biodiversity-sensitive areas	Share of investments in investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas	1.03 %
Water	8. Emissions to water	Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average	0.03753863 tonne / EUR M invested
Waste	9. Hazardous waste ratio	Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average	22.508446 tonne / EUR M invested

SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS			
Social and employee matters	10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	10.46 %
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	0 %
	12. Unadjusted gender pay gap	Average unadjusted gender pay gap of investee companies	7.77 %
	13. Board gender diversity	Average ratio of female to male board members in investee companies	15.68 %
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	0 %
ADDITIONAL CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS			
Emissions	4. Investments in companies without carbon emission reduction initiatives	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement	90.3 %
ADDITIONAL INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS			
Anti-corruption and anti-bribery	15. Lack of anti-corruption and anti-bribery policies	Share of investments in entities without policies on anti-corruption and antibribery consistent with the United Nations Convention against Corruption	0.91 %

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/01-2023 to 31/12-2023.

The top investments of the Sub-Fund are calculated based on the average of the daily values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2023	2022
#1 Aligned with E/S characteristics	99.09%	98.8%
#2 Other	0.91%	1.2%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

% of aligned investments	Enabling <i>(An economic activity that enables other activities to contribute to an environmental objective)</i>	Transition <i>(Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)</i>	Own Performance <i>(An economic activity that is performed in an environmentally sustainable way)</i>
Climate Change Mitigation	4%	0%	1%
Climate Change Adaptation	0%	-	0%
Biodiversity & Ecosystem	-	-	0%
Pollution Prevention & Control	-	-	0%
Water & Marine Resources	0%	-	0%
Circular Economy	0%	-	0%

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures*

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The portfolio is 3.61% aligned with the EU Taxonomy through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons	
2023	2022
0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Investment Manager.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2023
<i>Amount of new PAI analysis made</i>	58

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE SWEDEN SMALL CAP
 Legal entity identifier: 549300G1P850YAT1OZ08

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting, small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Companies that were non-compliant with UNGC

The top investments of the Sub-Fund are calculated based on the average of the daily values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2023	2022
#1 Aligned with E/S characteristics	96.53%	95.9%
#2 Other	3.37%	4.1%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

% of aligned investments	Enabling <i>(An economic activity that enables other activities to contribute to an environmental objective)</i>	Transition <i>(Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)</i>	Own Performance <i>(An economic activity that is performed in an environmentally sustainable way)</i>
Climate Change Mitigation	3%	0%	3%
Climate Change Adaptation	0%	-	0%

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The portfolio is 2.76% aligned with the EU Taxonomy through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons	
2023	2022
0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Investment Manager.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE SWEDEN
 Legal entity identifier: 549300660AULYSU79L71

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting, small arms, adult entertainment, alcoholic beverages, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Companies that were non-compliant with UNGC	
2023	2022
0	0

Controversial weapons				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0

Sector exclusions				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Military Contracting	Companies manufacturing military weapon systems or integral, tailor-made components of these weapons.	5%	0	0
	Company providing tailor-made products or services that support military weapons	5%	0	0

Gambling	Companies owning or operating gambling establishments, manufacturing specialized equipment used exclusively for gambling or providing supporting products or services to gambling operations.	5%	0	0
Tobacco Products	Companies involved in the manufacturing, distribution, or retail sale of tobacco products or in the supply of tobacco-related products or services.	5%	0	0
Oil & Gas	Companies involved in oil and gas exploration, production, refining, transportation, or storage.	5%	0	0
	Companies involved in the generation of electricity from oil or gas.	25%	0	0
Thermal Coal	Companies involved in thermal coal extraction.	5%	0	0

	Companies involved in the generation of electricity from thermal coal.	10%	0	0
Oil Sands	Companies involved in oil sands extraction.	5%	0	0
Shale Energy	Companies involved in shale energy exploration or production.	5%	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are sector exclusions, controversial weapons, and UN Global Compact. It is noteworthy that during the previous period, there were no investee companies exceeding the level of involvement, and this compliance record continues into the present period.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator	Metric	Impact 2023	
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS			
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	240.10985 tonne CO ₂ e
		Scope 2 GHG emissions	239.72372 tonne CO ₂ e
		From 1 January 2023, Scope 3 GHG emissions	55304.066 tonne CO ₂ e
		Total GHG emissions	56068.914 tonne CO ₂ e
	2. Carbon footprint	Carbon footprint	831.4553 tonne CO ₂ e / EUR M invested

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

0.01% of the portfolio is aligned with the EU Taxonomy through transitional activities and 0.75% is aligned through enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE INDIA
 Legal entity identifier: 5493000M8QEYBQDR5T18

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting and small arms (**Sector exclusions**). This has been screened for on a monthly basis.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Companies that were non-compliant with UNGC	
2023	2022
0	0

Controversial weapons				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Controversial Weapons	Companies involved in the core weapon system of controversial weapons, or components or services of the core weapon system that are considered tailor-made and essential for the lethal use of the weapon.	0%	0	0
	Companies providing components or services for the core weapon system of controversial weapons, which are either not considered tailor-made or not essential to the lethal use of the weapon	0%	0	0

Sector exclusions				
Activities	Description of Activities	Level of Involvement	Companies Exceeding Level of Involvement 2023	Companies Exceeding Level of Involvement 2022
Military Contracting	Companies manufacturing military weapon systems or integral, tailor-made components of these weapons.	5%	0	0
	Company providing tailor-made products or services that support military weapons	5%	0	0
Small Arms	Companies involved in the manufacturing, distribution, sale, or retail sale of assault weapons.	5%	0	0
	Companies involved in the manufacturing, distribution, sale or retail sale of small arms or key components to small arms.	5%	0	0

● **...and compared to previous periods?**

The characteristics that are comparable to a previous period are sector exclusions, controversial weapons, and UN Global Compact. It is noteworthy that during the previous period, there were no investee companies exceeding the level of involvement, and this compliance record continues into the present period.

Please see the table in the “How did the sustainability indicators perform?” section above for further details.

The sustainability indicators are not subject to an audit statement or other review by a third party, including for historical comparisons.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts were identified, prioritised, and assessed from a materiality perspective relevant to the specific investment strategy of the Sub-Fund. A proprietary analysis tool based on Principal Adverse Impacts Indicators was applied.

In addition, the Sub-Fund has considered principal adverse impacts through active ownership. Where material adverse impacts have been identified in relation to an investee company, such impacts have in some cases formed the basis for an engagement with the investee company.

The principal adverse impacts of an investee company have been integrated into the investment decision-making process along with other factors such as financial and commercial factors and sustainability risks.

Adverse sustainability indicator	Metric	Impact 2023	
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS			
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	34730.703 tonne CO ₂ e
		Scope 2 GHG emissions	4128.7915 tonne CO ₂ e

The top investments of the Sub-Fund are calculated based on the average of the daily values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2023	2022
#1 Aligned with E/S characteristics	98.53%	98.2%
#2 Other	1.47%	1.8%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

% of aligned investments	Enabling <i>(An economic activity that enables other activities to contribute to an environmental objective)</i>	Transition <i>(Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)</i>	Own Performance <i>(An economic activity that is performed in an environmentally sustainable way)</i>
Climate Change Mitigation	0%	<0.5%	<0.5%
Climate Change Adaptation	0%	-	0%
Biodiversity & Ecosystem	-	-	0%
Pollution Prevention & Control	-	-	0%
Water & Marine Resources	0%	-	0%
Circular Economy	0%	-	0%

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures*

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The portfolio is 0.03% aligned with the EU Taxonomy through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons	
2023	2022
0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Investment Manager.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>

	2023
<i>Amount of new PAI analysis made</i>	55
<i>Amount of updated PAI analysis</i>	0

Active ownership

Engagement is an integral part of the investment process. It is anchored directly with the portfolio management team responsible for the Sub-Fund.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: C WORLDWIDE CENTURIA GLOBAL EQUITIES
 Legal entity identifier: 549300Z2JV5OS16IOP69

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____%

No

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted environmental and social characteristics by considering Principal Adverse Impacts (PAI) on sustainability factors (**Principal Adverse Impacts**). The Principal Adverse Impacts Indicators are specified in the Principal Adverse Impacts Statement of the Management Company (**the Principal Adverse Impact Statement**). This analysis has been conducted prior to every new investment made.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies which at the time of the initial investment in the opinion of the Investment Manager of the Sub-Fund are non-compliant with the 10 principles of the UN Global Compact (**UN Global Compact**).

The Sub-Fund promoted social characteristics by avoiding investments in investee companies involved in controversial weapons (**Controversial weapons**). This has been screened for on a monthly basis.

The Sub-Fund promoted environmental and social characteristics by avoiding investments in companies exceeding a certain level of involvement in military contracting, small arms, adult entertainment, gambling, tobacco products, oil & gas, thermal coal, oil sands and shale energy (**Sector exclusions**). This has been screened for on a monthly basis.

● **How did the sustainability indicators perform?**

Principal Adverse Impacts: Please see the table in the “How did this financial product consider principal adverse impacts on sustainability factors?” section below.

UN Global Compact: All investee companies were screened at the time of the initial investment via a third-party data provider, Sustainalytics. In the opinion of the Investment Manager of the Sub-Fund no companies were non-compliant with the 10 principles of the UN Global Compact at the time of investment.

Controversial weapons: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies involved in controversial weapons. No investee companies involved in controversial weapons were identified via the regular screenings during the holding period.

Sector exclusions: Before an investment was made in an investee company and regularly during the holding period the Sub-Fund has conducted screening of the activities of each investee company to avoid investments in companies exceeding a certain level of involvement in specific activities. No investee companies exceeding such level of involvement in specific activities were identified via the regular screenings during the holding period.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

The top investments of the Sub-Fund are calculated based on the average of the daily values of the Sub-Fund.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

	2023	2022
#1 Aligned with E/S characteristics	99.21%	98.8%
#2 Other	0.79%	1.2%

The investments of the Sub-Fund mainly consist of equities. All equities are used to meet the environmental or social characteristics promoted by the Sub-Fund, in accordance with the binding elements of the investment strategy (#1).

The remaining investments of the Sub-Fund consist of cash held as ancillary liquidity (#2).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	Weight
Application Software	15.7%
Building Products	11.4%
Health Care Supplies	8.1%
Diversified Banks	7.5%
Health Care Equipment	6.4%
Research & Consulting Services	6.2%
Specialty Chemicals	5.5%
Specialized Consumer Services	5.4%

Financial Exchanges & Data	2.9%
Transaction & Payment Processing Services	2.5%
Paper & Plastic Packaging Products & Materials	2.5%
Semiconductor Materials & Equipment	2.5%
Electronic Equipment & Instruments	1.9%
Electronic Components	1.2%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

% of aligned investments	Enabling <i>(An economic activity that enables other activities to contribute to an environmental objective)</i>	Transition <i>(Activities that are crucial to the economy but are not currently close to a net-zero carbon emission level)</i>	Own Performance <i>(An economic activity that is performed in an environmentally sustainable way)</i>
Climate Change Mitigation	0%	0%	0%
Climate Change Adaptation	0%	-	0%
Biodiversity & Ecosystem	-	-	0%
Pollution Prevention & Control	-	-	0%
Water & Marine Resources	0%	-	0%
Circular Economy	0%	-	0%

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Where data is not available directly from the companies, estimated data is used from a third-party data provider.

Any compliance of the investments with the criteria under Article 3 of the EU Taxonomy has not been subject to an audit statement.

● **What was the share of investments made in transitional and enabling activities?**

The product does not have any alignment with the EU Taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash is held as ancillary liquidity. There are no minimum environmental or social safeguards. Investments under “other” are not used for hedging.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sector exclusions and controversial weapons

During the reference period screenings were conducted at the time of a new investment and on a regular basis during the holding period to ensure that no investee companies exceeded the level of involvement in the sectors mentioned above. Morningstar Sustainalytics is utilised to conduct these monthly screenings.

Number of investee companies sold due to sector exclusions or controversial weapons	
2023	2022
0	0

Principal Adverse Impacts

As for the PAIs all investee companies have been screened regularly – and as a minimum once a year - during the holding period via a proprietary analysis tool. Where material adverse impacts have been identified in relation to an investee company, such impacts may form the basis for an engagement with the investee company.

The Sub-Fund has considered principal adverse impacts on sustainability factors as part of its investment decision process as specified in the PAI statement of the Investment Manager.

The PAI statement is available at <https://cww.lu/downloads/esg-related-disclosures/statement-on-principal-adverse-impacts-of-investment-decisions-on-sustainability-factors/>
